Emotional Check-in

Emotional Check-In. Can you check in with a family member and discuss how you are feeling? You might feel worried, sad, happy, excited or tired. It is important to check in with your well-being before starting a new day of home learning.

ERIC

Do not forget to record in your reading journal this morning. Ensure that you put the date in the column; write down the book you are reading and the pages that you've read and finish with a detailed response to what you've read. If you are struggling, think about what you are enjoying or not enjoying, are there any characters that you particularly like or dislike? Are you wondering or asking yourself any questions as you are reading? Don't forget - audio books are also a great way to listen to stories!

Spelling

Choose five common exception words from the list to learn for the week. You could use the look, say, cover, write check sheet to help you.

Maths

We are going to compare and explore measures today.

- 1st – Make a template of our right and left foot. Put your name in the middle and measure from heel to toe and add this to the middle too
- 2nd – Let's compare feet sizes – Measure the feet of everyone in your household. Can you put them in order from smallest to biggest (just one foot) – is there a pattern between height and foot size?
- 3rd – Let's do some measurements using our feet:
 - How many feet long is a table? The length of the room? The windowsill? The bookcase? My bed? The storage unit? Etc.
- Can you record your results in the table?

My left foot is __cm long

My right foot is __ cm long

There is a difference of __cm between my feet/My feet are exactly the same size

Object	Length (feet)

Reading

We are continuing to explore 'The Abominables'. Today we are going to read and annotate Chapter 2. Highlight and annotate the chapter with any definitions and wonderings. Can you make a prediction of what you think might happen next?

CHAPTER 2

THE TROUBLE WITH YETIS

'AS SOON AS SHE SAW THE ORPHANED YETIS, Agatha gave up all idea of escaping from the secret valley. No, she would stay and bring the babies up to be God-fearing creatures and give them a mother's love. For she realized at once that the big yeti who had kidnapped her must be a widower who had lost his wife in some tragic accident and that he wanted her to care for his children. And care for them she did. The very fat, blue-eyed baby was a girl and Agatha called her Lucy, after the kennel-maid who had been her best friend at Farley Towers. The brown-eyed yeti, who was a boy, she called Clarence. And of course, there was Ambrose, with his mad eyes and his squashed face—Ambrose who was always being sat on by the others, or falling into mouse-hare holes, or getting lost. The first thing Agatha did, naturally, was teach all the yetis to talk. Father learned to speak quite quickly even though he was over three hundred years old by the time Agatha came to the valley, and it is not so easy to learn things as you get older. And of course, the children learned as easily as they breathed.'

English

As this week is Science week, we would like for you English piece this week to link to a scientist of your choice.

Yesterday, you researched some scientists. Today, I would like you to create a fact file on one of your chosen scientists.

Maths Meeting

Spend 15 minutes practising the times table that you are feeling less confident with – make sure that you can recite them in order, out of order and are beginning to get more confident with the division facts.

Science

This week is Science week and the theme for this week is growth!

Today, we are going to explore the composition of mud. If you do not have access to mud in a garden then skip this task.

Task 1: Healthy soil is important for plants to grow. Did you know that there are different particles that make up soil? In this activity, we will investigate the texture of the soil by looking at the percentages of these particles:

Sand

Silt

Clay

Organic matter

Equipment:

- Soil
- A container
- Ruler
- Water

Method:

- Fill your container halfway with soil
- Fill the other half with tap water
- Give it a good shake or mix
- Wait two days, until the soil has settled
- Time to analyse the particles

Task 2: Grab your sketch book and a pencil and let's sketch some plants!

You can either:

- go for a wonder in your garden to sketch some plants/ trees
- sketch some indoor flowers/plants
- use the pictures below to sketch some plants.

If you find any small plants, press them into your paper.

Annotate and label the sketches and pressed flowers with their parts.
